JOB SUMMARY

The Mental Wellness Navigator (MWN) supports the ability of Aboriginal clients in St'át'imc Territory to access mental wellness health care services across jurisdictions and programs. In accordance with the vision and values of the St'át'imc Outreach Health Services organization, the MWN works as a SOHS team member with accountability to St'át'imc members and Northern St'át'imc Health Leadership. The MWN is also a resource to health care and social service providers in St'át'imc Territory to assist with coordination of resources and to help improve service efficiency. The MWN works with all Aboriginal people located in the Northern St'át'imc Territory service area (urban and communities) and with all St'át'imc no matter where they live.

TYPICAL DUTIES AND RESPONSIBILITIES

The Mental Wellness Navigator will work closely with the SOHS interdisciplinary team to help their clients access seamless mental wellness services. The MWN will carry out an environmental scan, document and bring forward common themes and concerns from local health and social service providers to inform larger policy development and broader relationships that need development. The MWN may assist with coordinating meetings between health care providers, health authorities and community agencies to work on addressing barriers and improving care pathways for Aboriginal clients.
